

SEA LAND GLOBAL

TRADING & CONTRACTING. L. L. C

COMPANY OVERVIEW

Services Offered

Sea Land Global Trading and Contracting L.L.C is a multi-disciplinary service provider headquartered in Oman. Since our establishment, we have built a reputation for Technical Excellence, Operational Reliability and integrity across Marine Services, Offshore Energy support, General Trading, Construction and Electrical Manufacturing. Our turnkey solutions span Ship Repair and Maintenance, Project Logistics, Bulk Commodities Trading, Civil works and Custom Electrical Systems.

Quality Assurance

We adhere to ISO standards for quality and safety, ensuring excellent service.

Vision & Mission

VISION

The Engineering Communication Program is a leader in integrated communication education.

We empower our community to become top contributing professionals in their fields.

VALUES

- Collaboration
- Creativity
- Diverse Perspectives
- Empowerment
- Informed Practices
- Professionalism

MISSION

We help students to recognize the role of communication in effective engineering practice.

We create practices, programs and partnerships that enable students to become more confident and effective communicators, and thus, better engineers.

We collaborate with students, faculty and industry to develop discipline-specific communication instruction.

We foster and support integrity in student learning and communication practices.

We support research and professional development within our program.

**COMPLETED CIVIL & FOUNDATION WORK FOR
OIL & GAS REFINERY**

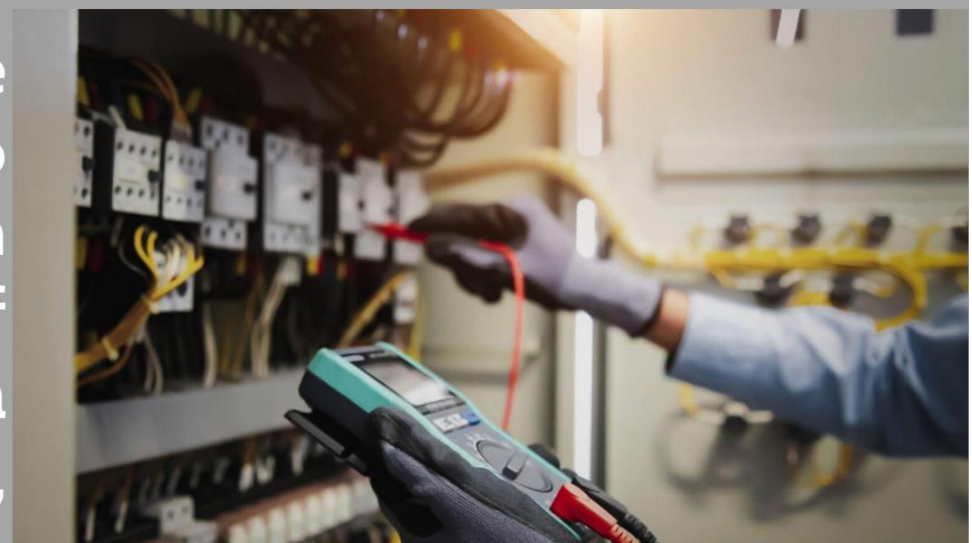

ELECTRICAL ESTABLISHMENTS

- Electrical Manufacturing
- Production of low-voltage and medium-voltage electrical panels and switchboards
- Custom electrical enclosures, control cabinets and distribution boards
- Component sourcing, assembly, testing and certification

Corporate Responsibility

As companies develop thorough knowledge of the tenets of NFPA 70E and prepare to embark on their electrical safety program journey, it's crucial they are first aware of key criteria that are essential for a successful program. To begin with, companies should put an organization wide commitment to safety in place. This commitment should involve executives, safety advocates, operational managers and employees. Buy-in across all company strata is necessary for the program's effectiveness.

Electro-Mechanical Solutions

Your Trusted Partner in Industrial Construction
Providing smart Electro-Mechanical Solutions through
efficient techniques and project commitment.

Areas of expertise are:

- Electrical systems
- Air-conditioning systems
- Plumbing and Drainage
- Fire Protection system
- Extra Low Voltage Systems

Speedy response to Customer
Enquires.

Meeting the requirements of the
Contract Specifications
within the stated budget and time.
Seeking to improve the Services &
Implementing Quality Assurance to
meet the client requirements of
Quality, Time and Cost.

MEP Works
